Europe Top 100 from 2008 to 2013

Ranked by market capitalisation

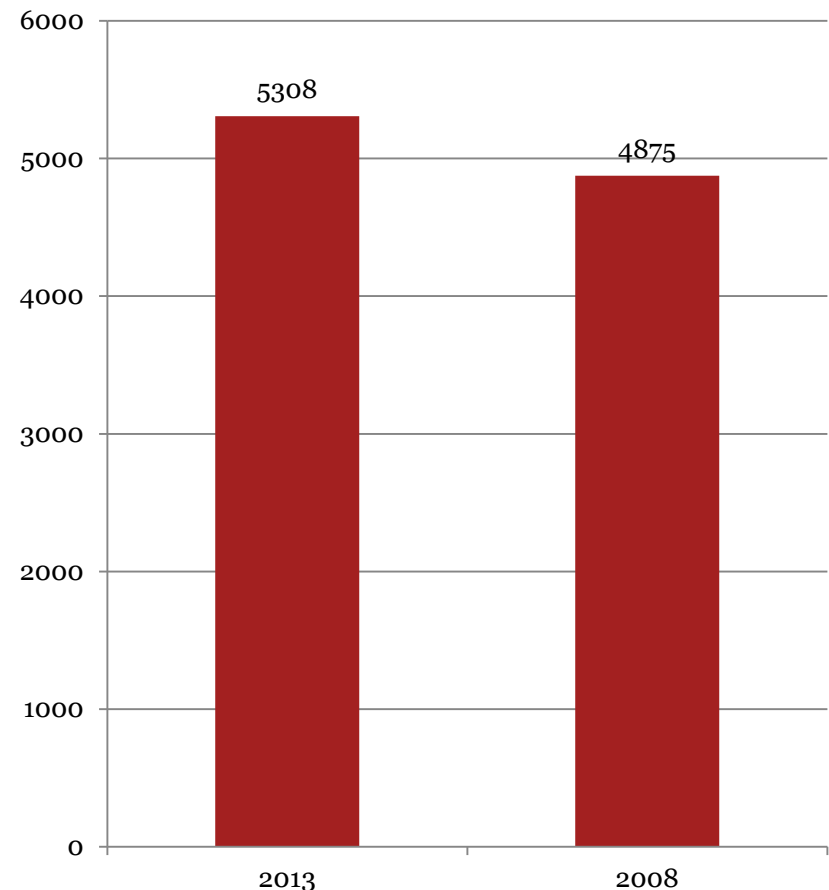

Summary

- In this brief report we have identified the top 100 listed companies in Europe and ranked them by market capitalisation.
- We have been able to identify interesting trends and developments on a individual company level, a regional level and by sector.

Key highlights

- **Top companies have fully recovered from financial crisis.** Total market cap of the European Top 100 companies in August 2013 is 7% higher than it was in August 2008.
- There are **risers and fallers.** **Retail & Consumer** (106%) and **Healthcare & Pharma** (47%) are the sectors showing the largest growth rate in terms of market cap in the Top 100.
- **Nestle is 1 in Europe.** Having increased its market cap in the past six years by more than €63bn, it has jumped from rank 7 to pole position.
- Territorial distribution between 2008 and 2013 stayed mostly unchanged with **UK** (22), **Germany** (17, up from 14 in 2008) and **France** being the most successful territories in our survey.
- There are **73 survivors** in the top 100 list since 2008.

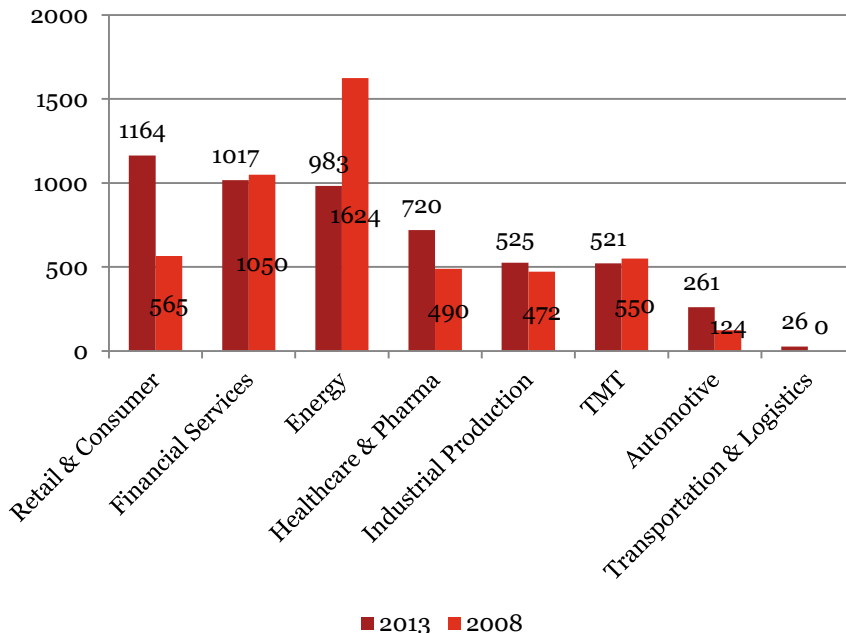

Total market cap (€bn) of European Top 100 companies

Top 100 European companies, by industry

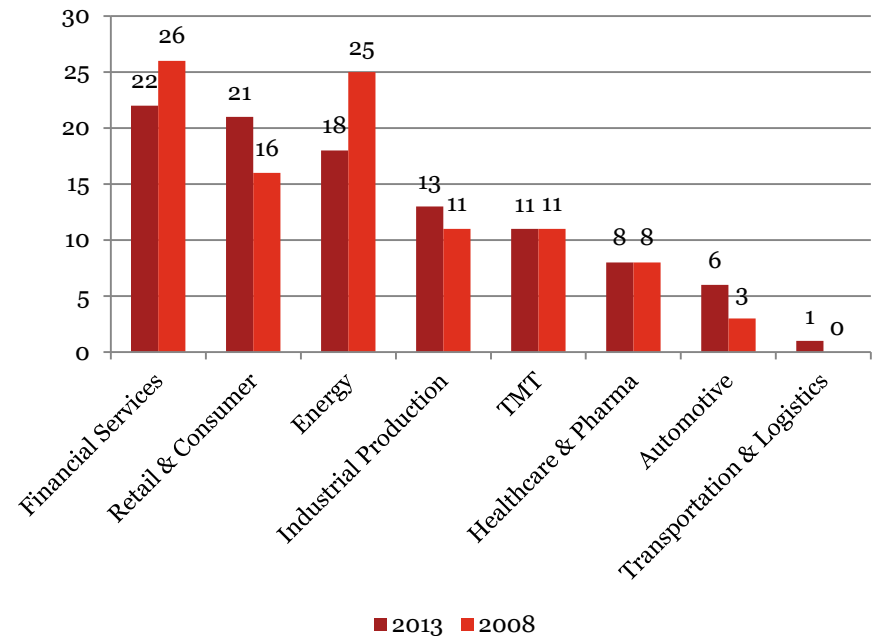

- Retail & Consumer, Healthcare & Pharma, Automotive were the rising industries between 2008 and 2013.
- Stable and even increasing **private consumption** and the **rise of the middle class** in a number of emerging countries are two of the **global mega trends** that helped companies lifting their market cap to new heights.
- Despite the financial crisis the **Financial Services** could almost keep their total market cap. However, there have been significant changes within the industry.
