

Invitation virtual meeting

Succeeding through uncertainty - COVID-19 emergency customs and international trade reliefs

Date

28 May 2020

Location

Virtual

Time

2pm CEST

Dear client,

What can businesses do during the crisis from a customs perspective to minimise supply chain disruption and what steps can they put in place to ensure Business As Usual post crisis? Cross-border trade is suffering considerably from the effects of the global COVID-19 pandemic. It is not so easy to find your way through the maze of new trade restrictive and trade facilitation measures, and what they mean in the short term and long term for customs and trade management. So it may be helpful to take a step back and look at the main implications and a starting point for prioritisation and action.

We will discuss with you:

- Measures and reliefs taken by the different tax authorities;
- What we are seeing in practice;
- Possible strategies for the future.

If you are interested, please register via the button. After registration you will receive a link that can be used to join the event.

PwC is providing live updates on the emergency indirect tax measures introduced in response to COVID-19. We have now added a special section on customs and excise measures. The latest updates will be added continually to [GlobalVATOnline](#).

We hope you will be able to join us for the customs and international trade virtual event on May 28.
